Recap
Two girls, the antithesis of each other in character and education: Kita and Minami. During a feud between the two, Kita saw a picture of Minami's mother and shockingly said that it was her mother, too.
These are the results of the examination.

The likelihood is 99.9%.
We've found that you are sisters.
The two embracing spirals lead us to the climax

...You knew.
グシャッ

I realized when I examined you at school.
I knew.
Yes...
The results
were the same as those from today.
I took a sample with me.

You don't have to believe it.
...
bam
Who can believe such...
...bull-shit...
Pant

Who...?
Not with this shit—
Don't fuck with me!
WOOSH
I don't have any person in my house that I can call family.
But when I was sharing meals with you, I...
I don't believe in that family.
I was the happiest that I've ever been.

I've yearned for a family for a long time.
I'm absolutely happy.

"something you give because you need an object to give it to."
I thought love was
a compli-cated thing ...
Though... Family is

In the end... I didn't get what I desired
deep in my heart.

My dad is the perfect incarnation of that.
He gave me everything,
as if i was certainly going to love him.

I want-ed you. I wanted a family.

What about Mom?! What did that crappy Father do to her?!
Why were you separated?!
grab
After we were born, he didn't stay in contact with her.
Father just used Mother.
...and her right to bear children, forcing her to undergo sterilization.
In exchange for a large amount of money,
he took away her right to raise the child...

He was full of pride and of the desire to have me all to himself...
What the fuck!?
Wh-!?
...As for me, I have relatives living under the same roof as my father, but my brothers, my sisters, their mothers, everyone- me included-
was sterilized.

Father is not normal.
All my siblings have different mothers.
I was despairing in such a household.

So I set a goal for myself, in order to stay sane.
I want to make Father lose.

yet,
It was truly difficult to keep my nerves in check,
I knew that I had a sister with blood ties,
so I was capable of keeping it together.
This is wonderful.

grin
you couldn't smile in the first place...
But it was all because ...
I hated you for that...
I... No matter what you were doing, you never smiled.
Anyway!

Right.
We're in a hospital!
I wanna go see 'im!

bam

You want to deal with him just like that?
grrrn

grrrn
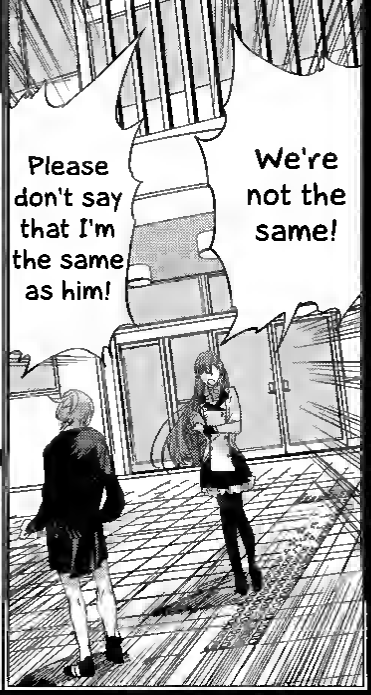
I've been thinking about a way to do that for ten years!
I have to crush his pride too!
I can't just beat him up,
I think that'd be great.
If I had a child, even though I can't make one...
What do you think?

Put more simply, I've made it possible to have a child with another person of the same sex.
I specialize in partheno-genesis research.
That's right,
Wait!!
woosh
I'm going to have a child through surrogate birth!
Then you're the same as Father!
Are you going to pay them for it!!?
You're going to make some-one else have your child for you!?

You're the same as him!
...!
serious
Aren't you making a child just for your own damn revenge on your father!?



Please don't say that I'm the same as him!
We're not the same!

No...! I'm not like...!

grab

I... I am ...!
I'm like him...

Give me your goddamn DNA.
I'm telling you, I'll make you a child!
Is there a reason why a surrogate's fine and I'm not!?
On top of that, don't you have someone you love for that!?
You said that you wanted me earlier, right!?
Th-That's-!
N-No...

This issue concerns our Families! We can't involve other people in it!
Doesn't that make me even more suitable!?
This is what it means to have a family, this is what you asked for...
You can't cheat with strangers like that!! Consider me instead!!
If you can't do that, you're just like Father!!

Are you really going to bear a child for me...?
Is it all right with you?
Is it...
You and our mom suffered enough, I'm the only one with a belly intact!
Let me at least do this, you idiot!!
for both of us.
I'll make the surrogate birth process succeed,
... Thank you.

Well!
She kicked!
Ugh.
Let's go out for a run when the time comes, okay?
Yeah!

I can't help myself, but I want to go out running with your mother.

It hurts...
TL/N: She's talking to the baby here.
but I want to run... Not being able to run suucks.
I can't run,

I'm going to caress you until you fall asleep.
Over here?

Hnnn~ Thanks ...

It hurts...
Ouch, ouch, ow!
It's so rough.
Your muscles are rehearsing for when the moment comes!
Are these labor pains?
I've been getting them often recently...
...
There's also the possibility of putting the mother in a dangerous situation...
Surrogate births are effective, but...
They don't necessarily succeed...

And we've both accepted that there's a risk with this process...
Though this is also a problem for normal births...
If you start thinking about what could go wrong, there's no end to it.
What if
Regard-less...
she and the baby
don't make it through?

I can't handle this...!
I can't accept that I could lose my family!
I won't stay sane...
Even though she's the one acting as my conscience...
I'm scared...

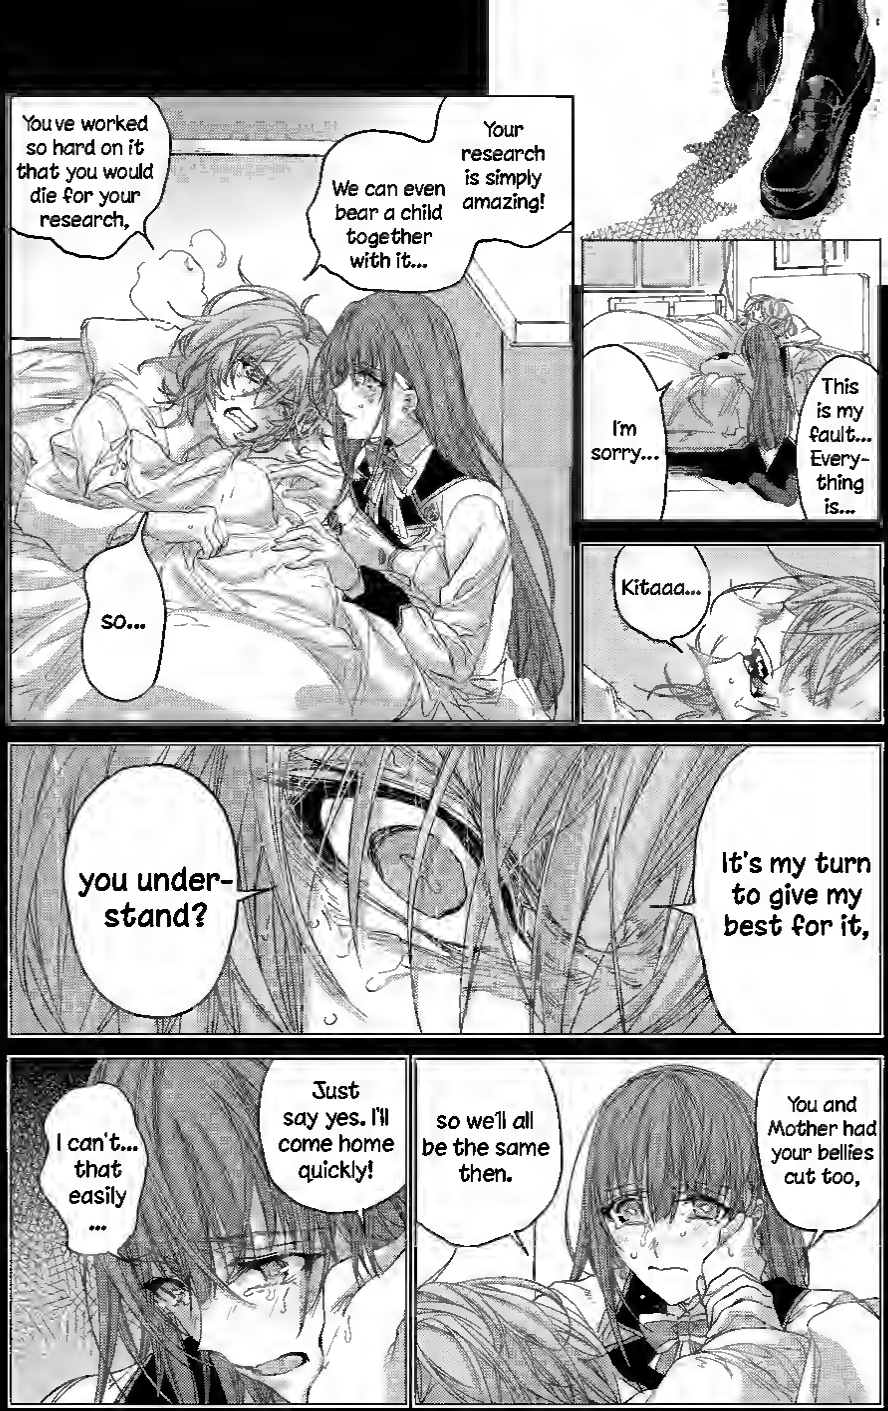
This is the worst-case scenario that I was...
The placenta separated from the uterus, and there's a large quantity of blood leaking into the uterus.
An emergency cesarean section!?
The child and the mother are both at risk, we have to operate quickly!
...Just now...
She's going to die...? And the child too...?
Just now... What was I thinking...?

If she died... I would...
They're going to cut Minami's belly...
There's no way I can acc-...
This late in the pregnancy...
We require the family's consent for the surgery...
I...
Ultimately...
How could I treat her dignity like this...
Haa-aa...
I thought we should have gone for a surrogate birth.
Ah...
I'm not like Father...
KITAN
Hurry up and accept already,
you idiot!!!
Just cut my belly already!! I ain't gonna die!!



You've worked so hard on it that you would die for your research,
Your research is simply amazing!
We can even bear a child together with it...
so...
This is my fault... Everything is...
I'm sorry...
Kitaaa...
It's my turn to give my best for it,
you understand?
Just say yes. I'll come home quickly!
I can't... that easily ...
You and Mother had your bellies cut too,
so we'll all be the same then.

grab
Just accept the surgery!
Let's have a beautiful marriage after I give birth to our child.
Let's get married.
Eh, what...?
Okay...

Please come in! The surgery has ended!
I can't do anything at all when she's not with me
I should have been in a position to support her...!
...not here anymore...
I'm this weak...
If she's...

I need...
family...
It's a girl. The birth was difficult, but it's alright now!
You idiot. Stop exaggerating...
I told you not to cry, didn't I...
You... You survived ...
You gave so much energy... Thank you, sincerely ...

People say children are like their parents,
but I won't be like my parents and let anyone hurt my child.
Let's become good mothers,
together!
Yes, of course!
